

HU-LU-SI

BLHU100
Top quality, decorated

BLHU200
Top quality, simple look

Sounds very Chinese, doesn't it? Indeed, this kind of snake charmer comes from China. The unusual pear-like form attracts one's attention. By blowing two metal plates that are inside the air room start vibrating. They produce the drones of the Hu-Lu-Si. Two tubes are directly connected with these metal plates, another one has holes and is played like a common flute.

The Hu-Lu-Si is of high quality and offers a clear sound. It looks very beautiful and is sold in a nice box.
