- BLLW103: Howard Low Whistle, nickel or black, tunable

The Tin Whistle is the wind instrument heard typically in Irish folk music. Originally made from tin, nowadays it is made from different materials like plastic, nickel and others.

The flute has 6 holes on the front side (no thumb hole) and is characterized by a pure high sound. By overblowing one plays the upper octave.

Like the standard Tin Whistle with a high pitch, the low whistle is an instrument used commonly in Irish folk music. Its sound is low and sonorous.

Tin Whistle: Generation, Clarke, Susato, Dixon, Chieftain

Low Whistle: Kerry, Chieftain, Dixon, Howard
