

# Kids' Accordion

**PEKH014 Melodium**

An instrument that fascinates children again and again! The reason for that is probably the interesting bellows whose movements create wonderful sounds. Or is it the sense of adventure, as it reminds one of a ship's Accordion, sailors, the ocean and long journeys? Anyway, this Accordion is a handy model for kids.

Melodium has 14 notes, a diatonic scale and a nice timbre so you can create a nice sound with it.
