

Lotus Flute

No Vietnamese celebration would be complete without the chirping of simple little Lotus Flutes. But in the West the Lotus flute enjoys great popularity too. Children love it as well as adults. While blowing you move the plunger up and down and create a smooth and infinitely variable scale. Both models in metal or plastic allow a wide range of notes and glissandi. Try and enjoy! Solid and long-lasting.

Bamboo: Makes your child chirp like a little bird! Cheerful sound and easy to play. Suitable for age 3+.
